Tram tachograph data analysis

Tamás SOLTÉSZ soltesz.tamas@mail.bme.hu Room St 426.

Faculty of Transportation Engineering and Vehicle Engineering Department of Transport Technology and Economics

Functions of tachograph devices

- Finding out the circumstances of incidents (accidents), estimating the responsibility
- Supervising the regularity of drivers' work (e.g. speed limits, direction indicators, opening or closing doors)
- 'Tachograph defends and accuses in the same time.'

Traditional tachograph disc

Tachographs used on tram vehicles

Recorded data (in function of path length):

- Time
- Actual speed
- Position of controller (e.g. power or brake position)
- Doors, departure signals
- Devices operated by passengers (e.g. emergency signal)
- Use of other operation devices (e.g. direction signal, sand-sprayer)

Reasons for speed limits

- Safety (e.g. hardly visible intersections)
- Switches, track crossings
- Curves with little radius
- Wrong tracks

Parts of your exercise

Determine the following parameters by your data sheet:

- 1) Start time of travel (v>0)
- 2) End time of travel (departure from the last stop)
- 3) Number of stops
- 4) Total dwell time (*at* stops)
- 5) Total journey time (*between* stops)
- 6) Number of speed limit violations
- 7) Absolute (km/h) and relative (%) measure of the overstep of speed limits

Calculate the following indicators:

- 8) Whole distance travelled
- 9) Average speed of the whole travel
- 10) Average speed in traffic (without stops)
- 11) Ratio of total dwell time and total journey time (one indicator)
- 12) Optional: Acceleration after, and deceleration before the first stop
- 13) Short description of the travel, with attention paid to unusual even

Speed limits on the tram line (measured from start terminus):

Start point (m)	Length (m)	Speed limit (km/h)	Reason:
815	$5 + L_{veh}$	30	Switch (trailing-point movement
847	$5 + L_{veh}$	10	Switch (facing-point movement)

SB	Spare emerg. br.
DO	Doors open
DS	Departure signal
SS	Sand-sprayer
ES	Emergency signal

Thank you for your attention!
